Attached is a revised draft ASAO for the OOU. Agreed upon language from previous cross-proposals is no longer in redline. Changes made since Todd's last revision are in redline, including a few typo-type things I noted on a final read-through. Also attached is a final or near-final version of the SOW, barring any further comments. Please let me know if we need to discuss anything further. This version has not gone through management or DOJ review at this time, and remains subject to their approval. If there are no further comments or concerns, we will prepare a signature version.

Todd, I want to be clear that we have not approved the access agreement; nor do we need to at this point. I did respond to your specific question as I understood it. We can discuss that separately.

Wendy, please note that we still need signature information for your client.

Thanks!
